

Indra Group joins the Microsoft Intelligent Security Association

[Madrid, [Spain] — [15/09/2026] — Indra Group, today announced it has become a member of the Microsoft Intelligent Security Association (MISA), an ecosystem of software development companies and security services partners that have integrated their solutions with Microsoft Security technology to better defend our mutual customers against a world of increasing cyber threats.

This recognition reinforces the position of Indra Group—and, specifically, its IndraMind Cybersecurity unit—as one of the leading providers of advanced cybersecurity services and underscores its ability to help organizations maximize the value of their investments in Microsoft Security.

In this context, Microsoft's intelligence is integrated as a key capability for delivering the SmartMDR service, Indra Group's advanced detection and response (MXDR) offering. The service brings advanced operational, protective, and continuous improvement capabilities to organizations of various sizes, helping them strengthen their security posture in the face of an increasingly complex and sophisticated threat landscape, while keeping their capabilities aligned with the vendor's best practices.

"Significantly increasing defensive capabilities is not merely a compliance requirement; it is an indispensable strategic lever for making companies more

resilient, competitive, and prepared. Today, no organization can combat cyberthreats in isolation; the true value lies in aligning efforts,” explains Roberto Espina, global director of Cybersecurity at IndraMind.

“The Microsoft Intelligent Security Association has grown into a vibrant ecosystem comprised of the most reliable and trusted security vendors across the globe,” said Maria Thomson, Director, Microsoft Intelligent Security Association.

“Our members, like Indra Group, share Microsoft’s commitment to collaboration within the cybersecurity community to improve our customers’ ability to predict, detect, and respond to security threats faster.”

Established in 2018 to bring together Microsoft leaders, & security vendors, MISA focuses on collaborating to combat security threats and create a safer environment for all. Its mission is to provide intelligent, industry-leading security solutions that work together to help protect organizations at the speed and scale of AI in an ever-increasing threat landscape.
